## **MAXOR NATIONAL PHARMACY SERVICES CORPORATION ACQUIRES PICKPOINT CORPORATION**

AMARILLO, TEXAS (March 31, 2011) ----- Maxor National Pharmacy Services Corporation (Maxor) and the PickPoint Corporation (PickPoint), a California company headquartered in Pleasanton, California, announced today the completion of a transaction which results in the acquisition of PickPoint by Maxor. PickPoint will continue operations from its Pleasanton facility doing business as PickPoint, which will become a new operating division of Maxor.

In commenting on this transaction, Jerry Hodge, Maxor's Chairman of the Board, said, "PickPoint and Maxor have enjoyed a very valuable partnership for several years. Both companies have been built on the guiding principle that superior customer service is absolutely essential for a company to grow and prosper, and it is this similarity in corporate cultures that will allow us to easily and successfully merge the business operations of PickPoint into Maxor. We want to assure all of PickPoint's customers that there will be no disruption of services as this integration takes place, and that superior customer service will remain the number one priority for PickPoint."

Kevin Delaney, President and CEO of PickPoint, added, "Being able to combine PickPoint's technology with Maxor's pharmacy services offering is a big win for both our respective companies, as well as our customers. Maxor and PickPoint will now be able to offer customers turn-key, end-to-end solutions that will further enhance operations. PickPoint is very excited about this opportunity."

### **About the PickPoint Corporation**

PickPoint is a leading software development company that specializes in the design, creation, manufacture and distribution of pharmacy technology solutions that improve the accuracy, safety and efficiency of medication delivery. Over the past ten years, PickPoint has become the leading provider of after hours, remote dispensing, and telepharmacy point of care solutions in the Continental U.S., Alaska, Hawaii, Europe, Asia and South America. PickPoint presently offers three primary pharmacy solutions including its *intelePharmacy Will Call System (WCS)*, *Remote Dispensing System (RDS)* and *Electronic Medication Administration Record (eMAR)*. Additional information about PickPoint can be found on its website at [www.pickpoint.com](http://www.pickpoint.com).
