### **PickPoint Granted Authorization to Operate Certification by the Defense Health Agency**

PickPoint, a division of Maxor National Pharmacy Services, LLC (Maxor), was awarded Authorization to Operate certification from the Defense Health Agency (DHA) for PickPoint's IntelePharmacy Will Call System (WCS) and Remote Dispensing System (RDS). This certification allows installation of PickPoint software on military networks, enabling military pharmacies to reduce customer wait time at pick-up and provide after-hours prescription dispensing.

"Much like the private sector, military pharmacies are looking for ways to use technology to improve medication delivery to patients, and we are proud that, through our IntelePharmacy WCS and RDS products, we can be a part of that mission," says Kevin Delaney, Vice President of PickPoint.

"Our lighted WCS dramatically improves our customers' operations by reducing labor, patient wait times, and return-to-stocks, while also improving patient safety and employee morale," adds Todd Miller, PickPoint's Government Sales Director.

"Since 2001, PickPoint's RDS system has been acting as a force multiplier by bringing the same standard of care found at the pharmacy to the point of care," said Miller. "Whether in after-hours emergency rooms, military treatment facilities, or outlying clinics, PickPoint's RDS helps to improve drug compliance and health outcomes by helping the patient leave the clinic with medications in hand."

#### **About Defense Health Agency**

The Defense Health Agency (DHA) is a joint, integrated Combat Support Agency that enables the Army, Navy, and Air Force medical services to provide a medically ready force and ready medical force to Combatant Commands in both peacetime and wartime. The DHA supports the delivery of integrated, affordable, and high-quality health services to Military Health System (MHS) beneficiaries, and is responsible for driving greater integration of clinical and business processes across the MHS. More information on the DHA can be found at [health.mil/dha](http://health.mil/dha).

#### **About Maxor**

Maxor is a leading pharmacy services platform that consists of the following primary business segments: (i) PickPoint, providing the design, creation, manufacturing and distribution of pharmacy technology solutions that improve the accuracy, safety and efficiency of medication delivery; (ii) MaxorPlus, providing client and patient focused pharmacy benefit management services; (iii) Maxor Specialty, IV Solutions, and Pharmaceutical Specialties, providing specialty pharmacy, respiratory, and home infusion services; and (iv) Maxor Pharmacy Management and Consulting Services, providing on-site outpatient pharmacy management, 340B audits, and consulting services to health systems, Federally Qualified Health Centers, and employers. More information on Maxor can be found by visiting [www.maxor.com](http://www.maxor.com).
